

# Shady Ashraf

## Frontend Developer

### Details

Shoubra, Qlayubia, Egypt.

+201017810025

[shady.ghozais@gmail.com](mailto:shady.ghozais@gmail.com)

Date of Birth

03/Feb/2002

### Skills

- Angular
- React
- TypeScript
- JavaScript
- HTML
- CSS
- SASS
- MEAN Stack
- Java
- Python
- SQL

## Career Objective

I am a fresh Front-end Engineer in Angular, using latest technologies like Angular 18, postman and swagger.

I aim to take the first step in my career by collaborating with professional corporates on projects that add value to the people and community.

## Experiences

Front-end Developer, Eskin-misr

<https://eskaneg.com>

Jul 2024 –Present (on-going project)

- Building a real estates project using Angular 18 SSR.
- Integration between back-end services (Nest.js) and front-end application (Angular HTTP Client).
- Making the application responsive to serve mobile users using the app from the web as well.
- Modular app as it consists of many distinct roles and privileges (Admin-Reviewer-Consultant-Buyer/Seller user).
- Managing translation from English to Arabic and vice versa.

Front-end Developer, Solace

Sep 2023 – Feb 2024 (Part-time).

- Creating an HR application on an enterprise level from scratch that serves dozens of well-known corporates in Angular 17.
- Integration between back-end services and front-end applications in RESTful APIs.
- Building A Mono-repo for a series of VIP applications and special services to share UI and services among all the applications using NX mono-repo.

## Languages

- Arabic: Mother Tongue
