Nasr City, Cairo, Egypt

Skills

- Angular – MEAN stack
- React – MERN stack
- Next.js – Full-stack
- JavaScript – TypeScript
- Java (Springboot)
- Python (FastAPI)
- Rust (Tauri, Axum)
- SQL
- SVG
- Tailwind

Languages

- Arabic – Native
- English – Very Good

Soft skills

- Teamwork
- Problem solving
- Communication skills
- Presentation Skills
- Ownership

Summary

I am a Front-end Engineer in Angular, using latest technologies like Angular 19, postman and swagger, and I create production-ready Desktop apps too!

Experiences

Front-end Developer - Book app

book-app-three-pi.vercel.app

Oct 2024 – Current (Full-time)

- Description: Building a real estate project using React 19..
- It has features such as reading or listening to it.
- It is possible to send a report if it contains violence, abuse or sex.
- It can be saved for later reading or buying
- You can make a request for what you want, what number, what day and what time

Front-end Engineer - Solace

Sep 2023 – Feb 2024 (Part-time)

- Creating an HR application on an enterprise level from scratch that serves dozens of well-known corporates in Angular 17.
- Integration between back-end services and front-end applications in both RESTful APIs.
- Building A Mono-repo for a series of VIP applications and special services to share UI and services among all of the applications using NX mono-repo.
- Handling minor projects using three.js and 3D objects.

Front-end Developer - Downloadium

<https://downloadium-official.com/>

- Description: Building a real estates project using Angular.
- Making the application responsive to serve mobile users using the app from the web as well.
- It helps you Download from internet.

Web developer - ConJ

Jan 2020 – Jan 2021 (Full-time)

Side Projects

Ui Design Figma, Downloadium

<https://www.figma.com/design/aoEYgHlvUS7HIqxGaL5NPX/Untitled?node-id=0-1&t=wDEmVMbnuCYV2nJr-1>

- Description: Building a UI design for Downloading programming.

Ui Design Figma, AI assistant

<https://www.figma.com/design/CIHZktVhm6L2OC8T4wRm4s/Untitled?t=90RO95RWgfMkWN5Q-1>

- Description: Building a UI design for Ai application.

Eskan-misr

<https://eskaneg.com/>

Description:

Building a full app as a Full-stack for Real estates clients, Where the app handles filling forms for the Sellers/Buyers users who look to buy or sell apartments and villas to other users in different locations across Egypt.

Forms are stored in database for later usage by other personas, such as admin and reviewers who take care of communicating with customers/users to provide them what units they've been looking for.

Techs used: Angular, NestJs for server, nginx as web server, MySQL database

Dubai Police

Description:

Building an application using Angular that organizes an event run by Dubai Police, that lets users take selfies and access the event link via QR code to upload the pictures, after which the users will be navigating to a web-socket event page based that lets them see their pictures get animated and help building a block into Burj khalifa, until a the whole Burj shape is built by their pictures and selfies.

Techs used: Angular, NestJs for server with WebSockets

Education

Bachelor's degree (Administrative sciences)
